PRIYANSH LOWANSHI

Python / Django Developer | B.Tech CSE

Bhopal, Madhya Pradesh | Phone: 7224055132 | Email: Priyanshlowanshi@gmail.com | LinkedIn: linkedin.com/in/priyansh-lowanshi-b2816832b

PROFESSIONAL SUMMARY

B.Tech Computer Science & Engineering graduate with hands-on experience in **Python and Django web development**. Skilled in developing web applications using **HTML, CSS, JavaScript and MySQL**, with practical experience in authentication, payment gateway integration, database management, API integration and deployment. Developed and deployed a complete **Django-based e-commerce website** as a live production project. Familiar with Git, GitHub, SDLC, Figma and Shopify.

INTERNSHIP

Job Title: Python / Web Development Intern

Company Name: Devotics Foundation (In collaboration with IBM SkillsBuild)

Duration: Sep - Nov 2026 – Present

TECHNICAL SKILLS

• **Languages:** Python, JavaScript, HTML5, CSS3
• **Frameworks:** Django
• **Database:** MySQL, PostgreSQL
• **Tools:** Git, GitHub, Figma, Shopify
• **Other:** SDLC, API Integration, User Authentication, OTP Verification, Payment Gateway Integration, Cloudinary, SEO Metadata, Deployment

PROJECTS

Parvi Collection — Django E-Commerce Website

Tech Stack: Python, Django, HTML, CSS, JavaScript, PostgreSQL, Cloudinary | Live: parvicollection.onrender.com

• Developed and deployed a complete **Django-based e-commerce website** as a live production website on Render.
• Implemented secure **user registration, login, and OTP verification** workflows.
• Developed end-to-end **product catalog, categories, shopping cart, and checkout** functionality.
• Integrated a robust **payment gateway** to facilitate seamless online financial transactions.
• Utilized **PostgreSQL** for relational database management and **Cloudinary** for cloud media storage.
• Implemented targeted **SEO metadata** to maximize web and search-engine discoverability.
• Built a fully responsive, intuitive, and user-friendly front-end interface using clean source code managed via **Git and GitHub**.

Netflix-Style Movie Website

Tech Stack: Python, Django, HTML, CSS, JavaScript, Bootstrap, TMDB API

• Developed a Netflix-inspired movie and TV-show browsing platform leveraging the Django framework.
• Integrated **TMDB API** to dynamically fetch and sync real-time movie and TV-show information.
• Implemented core dynamic features including **Trending, Movies, TV Shows, New & Popular, and My List**.
• Created detailed **movie content pages** featuring smooth poster-based visual browsing and secure user authentication.
• Built a highly responsive, modern dark-themed interface utilizing **Bootstrap and custom CSS overrides**.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

SAGE University, Bhopal | **Graduation: 2026** | **CGPA: 7.48/10**

LANGUAGES & ADDITIONAL INFORMATION

Languages: Hindi, English

• Hands-on depth in **Django-based web development** with deployment experience on production servers.
• Solid understanding of the **Software Development Life Cycle (SDLC)** and **Git-based agile workflows**.
• Deep interest in backend architecture, web security protocols, performance optimization, and testing.
